

BHOOMIKARANI J

Aspiring Software Engineer | CSE Student | Web & AI Enthusiast

✉ bhoomigowda861@gmail.com | ☎ +91 8618955788 | [LinkedIn](#) | [GitHub](#) | Mandya, Karnataka

PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science Engineering student currently in the 3rd year at PES College of Engineering, Mandya. Strong foundation in programming, data structures, and web development. Passionate about building real-world applications and exploring emerging technologies like Artificial Intelligence and Machine Learning. Eager to apply technical skills in practical environments and contribute to innovative software solutions.

TECHNICAL SKILLS

Java	Basic programming, Object-Oriented Programming (OOP), simple problem solving
SQL	Basic queries, SELECT statements, simple joins, MySQL
HTML / CSS	HTML5, CSS3, basic webpage design, forms and layouts
Python	Data types, control structures, functions, basic scripting
Tools	Eclipse IDE, Visual Studio, SQL Server
Soft Skills	Problem Solving, Analytical Thinking, Team Collaboration
Core Concepts	Data Structures (Arrays, Basics of Linked Lists), DBMS, Operating Systems (Basics)

EDUCATION

B.E. in Computer Science & Engineering (CGPA: 9.35) | *PES College of Engineering, Mandya*
2023-Present

Class XII – PCMB (92.16%) | *Vishwamanava Composite PU College, Mandya* 2020 – 2022

Class X (98.24%) | *Sri Madhava Vidhyalaya, Mandya* 2020

PROJECTS

Heart Disease Prediction System

- ▶ Developed a machine learning model to predict heart disease using patient datasets
- ▶ Improved prediction accuracy using classification techniques
- ▶ Tech Stack: Python, Machine Learning

Online Learning Platform

- Built a responsive website with login/register, course pages, and progress tracking
- Integrated YouTube videos for learning modules
- Tech Stack: HTML, CSS, JavaScript

CERTIFICATIONS & TRAINING

Introduction to Artificial Intelligence – LinkedIn Learning

- Completed foundational course covering AI concepts and real-world applications.

Artificial Intelligence – Cancer Cells Prediction (XPro Project) – Employability.life

- Completed 6-week project in collaboration with Federation University.
- Built AI models to analyze medical data and predict cancer cells.

Web Development Project Training (Innovista Participation)

- Developed an online mentoring platform for startups.
- Participated in Ideathon and expo phases.

LANGUAGES

English (Professional Proficiency) | **Kannada** (Native) | **Hindi** (Basic)
